# Are You In?

Make sure your work is included in HSRProj.

Participating in HSRProj is a great way to receive recognition for your current research activities.

Funding organizations and individual researchers are invited to submit current health services research projects to HSRProj one of two ways:

- Contact AcademyHealth via email at [hsrproj@academyhealth.org](mailto:hsrproj@academyhealth.org)
- Complete an online submission form at [www.academyhealth.org/hsrproj/input.cfm](http://www.academyhealth.org/hsrproj/input.cfm)

To learn more about the National Library of Medicine's (NLM) Health Services Research and Public Health Information programs, please contact the National Information Center on Health Services Research and Health Care Technology (NICHSR) at [nichsr@nlm.nih.gov](mailto:nichsr@nlm.nih.gov).

HSRProj is a joint effort of AcademyHealth and the Cecil G. Sheps Center for Health Services Research, University of North Carolina at Chapel Hill. The project is funded by the National Library of Medicine, National Institutes of Health, Department of Health & Human Services.

# What's Next in Health Services Research?

Preview ongoing research in the field with HSRProj.

HSRProj helps **researchers** find ongoing projects in their areas of interest.

- Enhance literature reviews with insight into research that is still in progress
- Identify cutting-edge topics and gaps in the knowledge base
- Build networks of colleagues interested in collaborating professionally
- Access top funders of HSR

HSRProj provides **funders** with an overview of research trends.

- Develop strategic agendas and identify priority areas for funding based on what's happening right now
- Assess current research trends
- Identify potential grantees with substantive experience in specific topic areas
- Find experts to assist in the development of proposal solicitations or review proposals

HSRProj connects **policymakers** to current evidence and expert witnesses.

- Find the most up-to-date evidence on health policy issues related to cost, quality and access
- Identify experts to serve as sources of new evidence; participate in a consensus development process; or review proposed regulations
- Connect with researchers or funders interested in studying answers to policy questions
