TA Workshop

The Planning Committee is developing a technical assistance workshop, to be held December 14 following the main conference, for early career investigators interested in learning more about research careers which focus on implementation science. This workshop will include multiple panel discussions focusing on topics related to current funding opportunities from the multiple supporters of the conference (e.g. NIH, AHRQ, PCORI, VA, RWJF, etc.), current trends in implementation research, and practical advice on early career strategic decision-making from established implementation researchers. To participate in the workshop, please email CEIR@VA.GOV with subject heading "For 15th Annual D&I Conference TA Workshop" and attach a one page abstract of your study idea, indicating at the top the funding organization to which the study would be submitted. Please note: If the funding organization is the National Institutes of Health, please specify which institute or center. Your abstract will only be shared with potential funders and will not be published or disseminated. These abstracts will also be used to connect you with other early-career researchers with similar interests to allow you to consult with one another (although they will not be shared with these other attendees without your permission). Submission deadline: Friday, November 18. Register by emailing CEIR@VA.GOV with subject heading "For 15th Annual D&I Conference TA Workshop"

Federal Government Registration Rate

To qualify for the federal government agency rate, you must be employed by the federal government and must register using your .gov e-mail address. This offer is not valid for government-funded or government-sponsored organizations/universities, or local or state government agencies.

Trainee Discount Requirements

Individuals enrolled in a full-time Ph.D. program, Post-doctoral fellowship, or Master's Degree program are eligible for the trainee discount of \$120 off the registration fee. Trainees are required to supply a letter from their training Program Director at the time of registration to receive the discount. The letter must state active dates of student or fellowship terms. Registration forms submitted without a letter of support will not be processed.

Substitutions

All substitutions will be assessed a \$50 processing fee. Substitutions will be accepted only once per registrant and must include written notification from the original registrant and a completed registration form for the substitute participant. If a non-member substitutes for a member, the non-member rate applies. Requests should be sent to registrations@academyhealth.org.

Cancellations

Cancellations must be received in writing by November 13 in order to receive a refund, less a \$100 processing charge. The refund policy applies to the conference. No refunds will be issued for cancellations received after November 13. Registration fees for canceled registrants may not be applied to future AcademyHealth meetings.
