Behaviorally Informed Digital Nudges to Increase Physician Efficiency In GP-Specialist Collaborative Care: A Prospective, Cluster-Randomized Trial

Monday 1 June

3:30pm - 4:45pm
604 SCC

Expedited Regulatory Programs for Cancer Drugs: Experiences from 3 Continents

3:30pm - 4:45pm
613-614 SCC

Best of ARM

Primary Care Design and Patient-Reported Experiences and Outcomes – How Does the United States Compare?*

Cross-Border Spillover of U.S. Abortion Restrictions on Misoprostol Retail Pharmaceutical Markets

Tuesday 2 June

11:45am - 1:00pm
4E SCC

Closing Plenary: "New Partnership Paradigms That Drive Innovation and Impact" and Award Presentation: Reinhardt Distinguished Career Award

*Listed twice because part of a "Best of ARM" session

Global Health Posters

All Posters Hall 4AB

Sunday 31 May

8:00am – 9:15am Global Health and Systems Research

- Endodontic and Periodontal Resource Distribution: Insights from a Dental Supply–Demand Index A-59
- Development of an Interdisciplinary, Interprofessional, and Family-Centered Rounding Framework Applicable to Children In Resource-Variable Settings A-60
- How Participatory Processes and Guideline Implementation Tools Drive Inpatient Guideline Use: A Realist Synthesis of Implementation Strategies In LMIC Hospitals A-61
- Infectious Complications and Mortality during Clinical Deterioration Among Children with Cancer In Resource-Variable Hospitals across Latin America: Implications for Adapting Infection Management Strategies A-62
- Association of the Work Environment to the Scottish Staffing Act's Provisions at Baseline: A Cross-Sectional Study A-63
- Workplace Realities of the Caribbean Nursing Workforce: Findings from Country Chief Nurses A-64
- “Only We Can Truly Understand Our Community”: Transfeminine Individuals’ Preferences for HIV Care Service Delivery In India A-65
- Fear, Stigma, and Health System Constraints Shaping Cervical Cancer Screening and Treatment Linkage In Kenya A-66
- Extending Physician Consultation Time through Increased Reimbursement: Promises and Challenges of South Korea's In-Depth Consultation Program A-67
- Physician Consultation Time and Perceived Quality of Outpatient Care for New Cancer Patients In South Korea: An Experimental Vignette Survey of the General Public and Physicians A-68
- Comparative Analysis of Nursing Workforce Models In High-Income Global Settings: United States Vs. Middle East A-69
- District Health Management Teams As Champions for Implementing the Who LIVE Life Suicide-Prevention Framework In Rural Uganda: A Pre-Implementation Qualitative Study A-70
- The Impact of China's Coal-to-Clean Heating Policy on Household Fuel Use and Cardiometabolic Multimorbidity: A Difference-In-Differences Analysis A-71

8:00am – 9:15am Child and Family Health

- Implementation and Evaluation of a Regional Tele-Pediatric Care Network In a Rural Region: Mixed-Methods Analysis A-55

8:00am – 9:15am Healthcare Access, Payment, and Coverage

- Hospital Responses to CT Reimbursement Cuts In South Korea: Short-Run Reactions and Long-Run Adaptations A-80
- Provider Variation In Initiating In-Hospital Secondary Prevention Medications after Acute Myocardial Infarction In Taiwan, 2017–2022 A-159
- Provider Diagnostic Coding Behavior In Response to Price Changes Under the South Korean FFS-DRG Payment System: Regression Discontinuity Analysis A-192
- Association of Breast Cancer Screening and Mobile Health Clinics’ Availability In Rural and Urban Taiwan: A Nationwide Retrospective Cohort Study A-200
- Non-Urgent Emergency Medical Service Missions As a Structural Burden: A Retrospective Analysis from a Rural Region In Northeast Germany A-283

8:00am – 9:15am Late-Breaking Abstracts

- Comparing the Medical Care Price Index with the Medical Care Expenditure Index for Global Budget Negotiation In the National Health Insurance System A-323
- The 2024 Physician Walkout Rivalled Pandemic-Scale Disruption at Tertiary Hospitals: Evidence from a 10-Year Interrupted Time Series of Korean National Claims A-382
- Network Analysis of Senior Fellows from a Global Health Equity Fellowship Program A-401
- Associations between Hospital Work Environment Quality and Nurses' Outcomes Among Internationally Educated Nurses: A Cross-Sectional Study. A-406
- Exploring the Impact of Temperature Anomalies on Global Hypertension Trends Using Population and Environmental Data: A Regional and Sex-Based Informatics Approach A-455
- Who Hearts Programs In High-Income Countries: Implementation, Outcomes, and Implications for Global Hypertension Control A-460

5:00pm – 6:15pm Health Equity and Disparities

- The Impact of Socio-Behavioral Barriers on HIV Global Target Gaps In Sub-Saharan Africa (SSA) B-153
- Navigating Cancer Risk: A Grounded Theory of Culturally Anchored Risk Engagement (CARE) Behavior Among Sub-Saharan African Immigrant Men B-67
- Proximity, Identity, and Access: How Ethnoracial Neighborhoods Shape Healthcare for SGM Immigrants B-83
- Positive Childhood Experience (PCEs) As a Clinical Practice to Address Referral Uptake Inequities Among Immigrant Families B-97
- School Climate and Mental Health Among College Students: Differences In Help-Seeking By Immigrant Status B-135
- State-Level Anti-Immigrant Climate, Political Factors, and Language Availability In Public and Private Mental Health Services for Hispanic/Latino and Asian Immigrants B-201

5:00pm – 6:15pm Student Posters

- Governance and Quality Assurance Mechanisms for Long-Term Care Standards : Evidence from the Survey of the United Nations Decade of Healthy Ageing (2021-2030) B-264
- Cost-Effectiveness Analysis of Gene Therapy for Sickle Cell Disease In Nigeria B-336
- Beyond the Immigrant Paradox: Intersectional Heterogeneity In Psychological Distress Among Racialized Legal Status Groups B-278
- Impact of the Implementation and Upgrades of Taiwan's NHI Medicloud System on Duplicate Medication Use Among Long-Term Childhood Cancer Survivors B-325
- Does Colocation Care Improve Diabetes Management? Assessing Care Delivery Models for Individuals with Co-Occurring Diabetes and Depression In Taiwan B-338

Monday 1 June

8:00am – 9:15am Dissemination, Implementation, and Impact

- Language Accessibility and Cross-Sector Collaboration Promote Physical Activity Participation for Latinos with Parkinson Disease: Perspectives from Healthcare and Exercise Professionals C-63

8:00am – 9:15am Mental Health and Substance Use

- Addressing Mental Health Misinformation In the South Asian American Community through Education and Engagement C-91
- Effects of mHealth-Based Cognitive Behavioral Therapy on Postpartum Depression: A Systematic Review C-99
- Structural Drivers of Depressive Symptoms In Displacement Affected Communities In South Sudan C-129
- Effects of a Mental Health Reimbursement Change on Utilization, Spending, and Health Outcomes Among Medical Aid Beneficiaries with Mental Illness In South Korea: A Difference-In-Differences Analysis C-130

8:00am – 9:15am Patient-Centered Care and Engagement

- Community Perspectives on Adapting and Implementing a Multi-Pronged Nurse Care Management Model for Latinx Adults with Chronic Pain C-219

8:00am – 9:15am Safety, Quality, and Workforce

- Patient Radiation Exposure from CT Examinations In Kuwait: A Five-Year Evaluation of Diagnostic Reference Level Adherence across Public Hospitals C-268
- Nurses' Intentions Regarding Task Shifting In Obstetric Medical Care: A Nationwide Survey Among Nursing Staff In Japa C-316
- Visualizing the Trends and Characteristics of Foreign-Born and Foreign-Educated Physicians Working In the United States C-328
- Magnet4Europe Intervention to Improve Clinician and Patient Wellbeing: A Quasi-Experimental Study of 56 Hospitals In Six European Countries C-335
- Contributions of International Medical Graduates and Foreign-Born Physicians to the US Internal Medicine Workforce C-336
- Contributions of Paraprofessionals to Behavioral Health Services for Asian Americans, Native Hawaiians, and Pacific Islanders C-350
- The Drivers and Design of State Legislation Creating New Licensure Pathways for Internationally Trained Physicians C-362

5:00pm – 6:15pm Aging, End-of-Life, and Complex Conditions

- Complex Challenges and Unsustainable Work-Arounds: Healthcare Worker Perspectives on Dementia Care for Patients with Limited English Proficiency D-16
- Sources of Outpatient Care Among High-Need, High-Cost Patients In a Universal, Non-Gatekeeping Health System: Evidence from Taiwan D-29
- Creating a Report on the Serious Illness Landscape In Puerto Rico D-48
- Harmony, Collectivism, and Individualism: Associations between Cultural Value Profiles and End-of-Life Care Preferences Among Chinese Older Adults In the U.S D-67
- Migration Patterns Among Medicare Beneficiaries In Puerto Rico Following Hurricane Maria D-94
- The Impact of Integrated Home-Based Primary Care on Continuity and Outcomes of Care Among the Community Homebound Older Adults In Taiwan D-100

5:00pm – 6:15pm **Digital Health, Data, and Analytics**

- Intention to Use Telemedicine Among Psychiatrists: A Survey Study In Taiwan D-125
- Using Claims Data to Simulate COVID Payment Policies: Urban-Rural Access and Equity Trade-Offs In Gyeonggi Province, South Korea D-181
- Medical and Long-Term Care Service Utilization after Acute Care Admission and Their Institutional Distribution: A Population-Based Analysis Using a Linked Health Insurance Database In Japan D-191

5:00pm – 6:15pm **Public and Population Health**

- Health System Ownership and U.S. Hospital Availability and Configuration of Language Access Services, 2009-2023 D-204
- The Experienced Burden of Disease In Denmark: A Comparison of the Economic and Social Effects of 15 Chronic Diseases D-222
- Cancer Prevention Capabilities of Adult Primary Care Practices In the United States: How Do Practices Caring for Latinos Compare? D-255

5:00pm – 6:15pm **Women and Gender Health**

- Displacement and Maternal Health Access: Comparing Refugee and Host Women In South Sudan D-281
- Improving Pregnancy Care for Trans People (IMPACT) Consortium: A Multi-Institutional, Multi-Disciplinary Approach to Studying Obstetric Health Among Transgender People D-284
- Rising Gestational Diabetes Mellitus (GDM) Prevalence and Persistent Racial, Ethnic, and Language (REaL) Disparities: A cohort study with Projections through 2030 D-286
- Survey of Knowledge and Preventive Strategies for Urinary Tract Infections Among Spanish-Speaking Women D-305
- Racial/Ethnic Disparities In Intrapartum Receipt of Maternal-Fetal Medicine Specialists Care for Births Complicated By Hypertensive Disorders of Pregnancy D-315
- Effect of Medicaid Coverage Policies on Gender-Affirming Care Use and Mental Health Outcomes Among Transgender Medicaid Enrollees D-332
- Better Nurse Work Environments Are Associated with Lower Odds of Peripartum Infection Among Black Patients D-334
- Without the LGBTQ+ Team, I Think It Would Have Been Harder to Get This Care: Barriers and Facilitators to Vocal Coaching, Hair Removal, and Prosthetics for Veterans with Gender Dysphoria D-360
