

IG Involvement in Planning for the Annual Research Meeting (ARM)

Based on feedback from the IG leaders, AcademyHealth has been incorporating IG leadership on the Annual Research Meeting Planning Committee since 2017. To ensure that each IG is represented we adhere to an official rotation schedule for the planning committee as noted below. Per the schedule, six IGs are included annually.

In addition to serving on the ARM Planning Committee, IG leaders will also have the opportunity to serve as a theme co-lead reviewer, and/or as an ARM abstract reviewer.

| Rotation Schedule for Interest Groups to Serve on the ARM Planning Committee | | | |
|--|----------|----------|----------|
